SHV's impressive portfolio of companies

Energy distribution

Heavy lifting and transport

Food cash-and-carry

Industrial services

Animal nutrition and aquafeed

Private equity investments

Testing, inspection and certification

Oil & gas investments

Our Proposition: Financial Savings with CO2 footprint reduction

Financial savings:
Up to **50%** vs grid

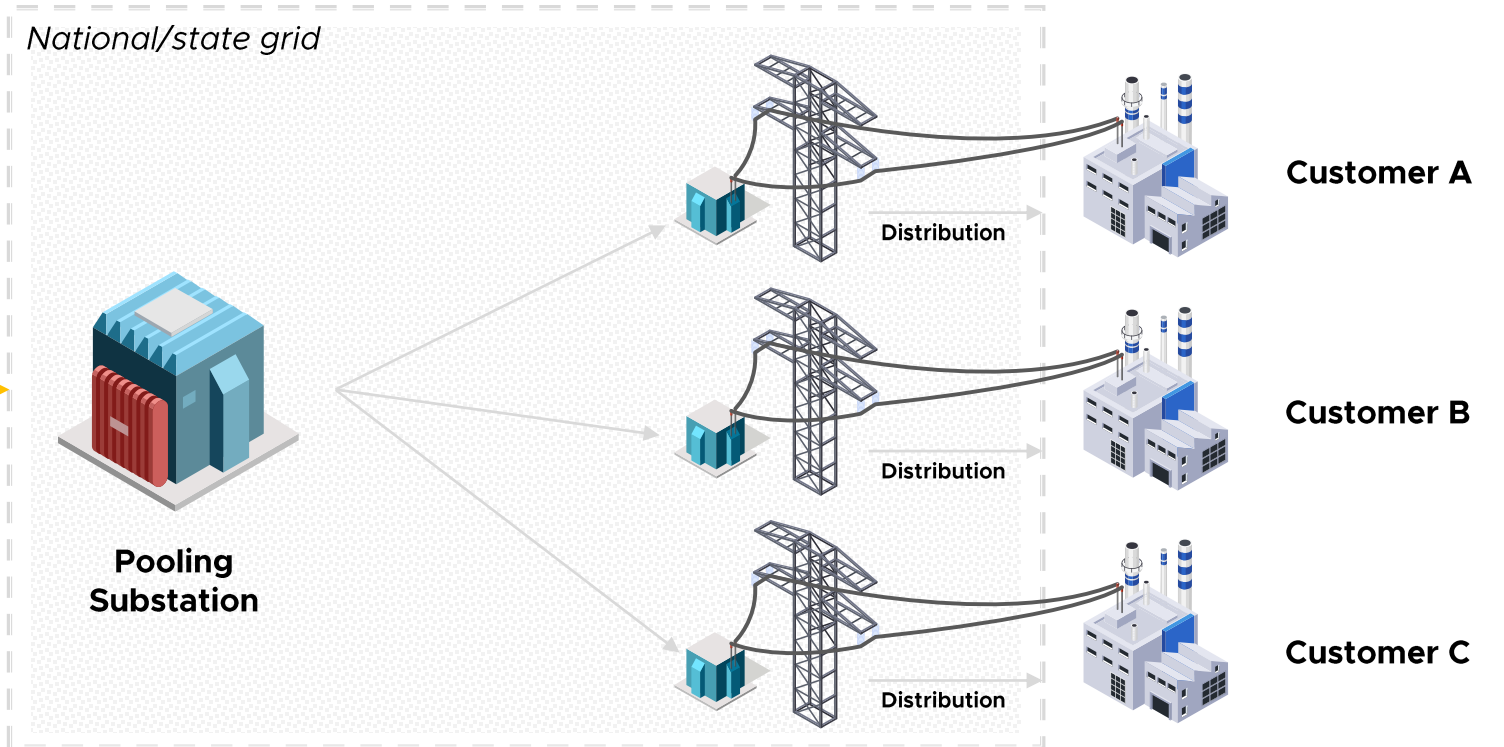

Net-Zero Targets:
Up to **60%** of
electricity needs

Long-Term Pricing Visibility
Insulation from ever increasing
grid tariff

SunSource Solar Plant

SunSource Energy's portfolio of off-site Solar projects across key states

Uttar Pradesh 1

Location: Bijnor
Capacity: 45 MWp
Status: Project Commissioned

Uttar Pradesh 2

Location: Jhansi (Multiple)
Capacity: 45 MWp
Status: Under Construction

Uttar Pradesh 3

Location: Lalitpur
Capacity: 15 MWp
Status: Under Construction

Tamil Nadu

Location: Ramnathpuram
Capacity: 21 MWp
Status: Under Construction

Maharashtra 1

Location: Wardha
Capacity: 150 MWp
Status: Under Development

Maharashtra 2

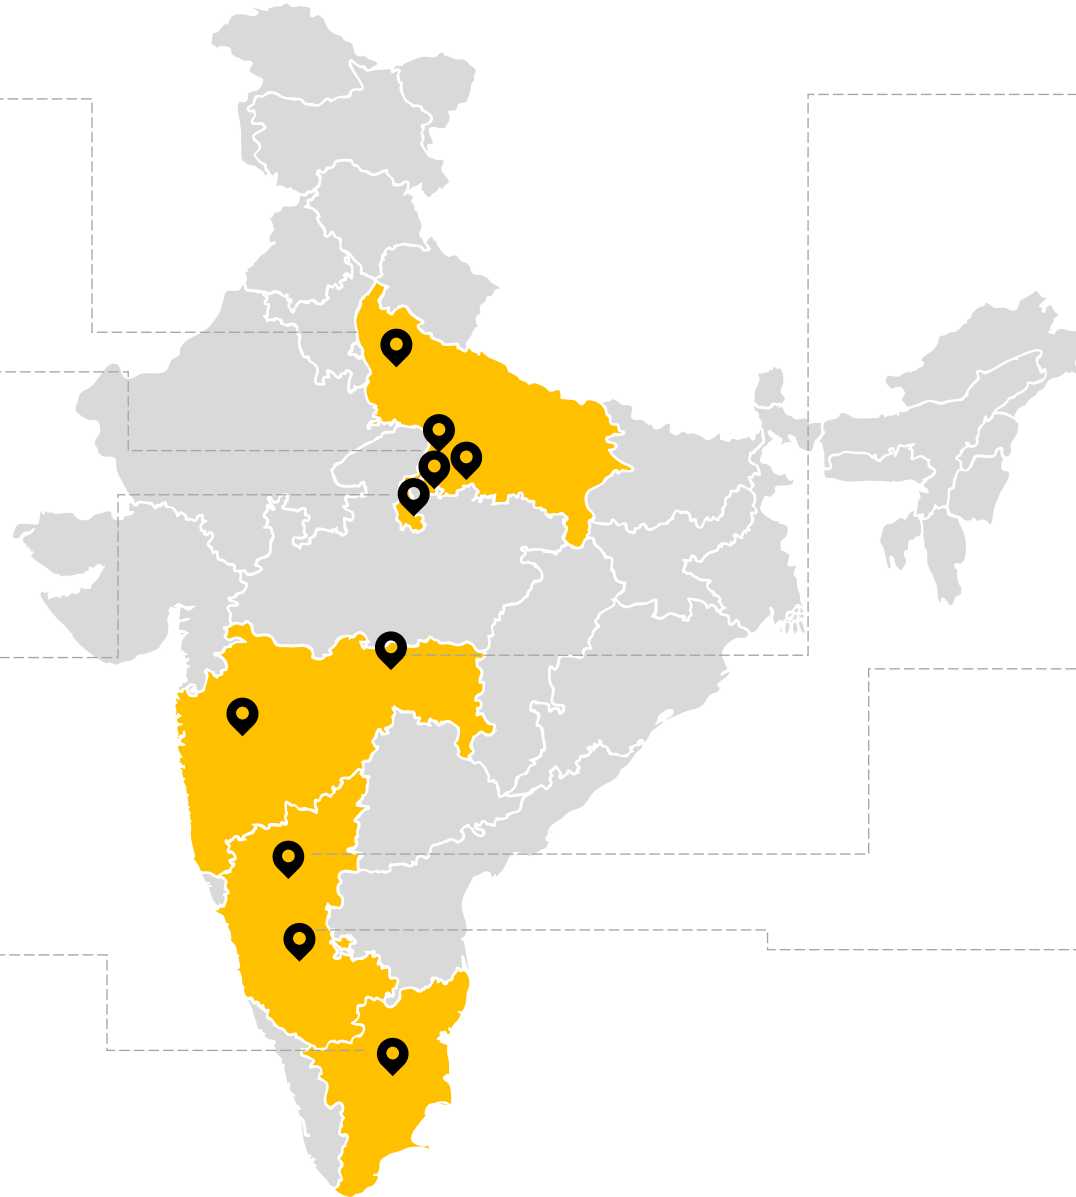

Location: Tuljapur
Capacity: 9 MWp
Status: Under Construction

Karnataka 1

Location: Gulbarga
Capacity: 27 MWp
Status: Project Commissioned

Karnataka 2

Location: Betgera
Capacity: 75 MWp
Status: Under Construction

Starting from development funnel, we target **leads from specific segments**

FMCG	Automobile	Manufacturing and Industrial	Healthcare and Pharma	Data Center and Others
				
				
				
				
				
				

Case Study: Karnataka 75 MWp – our **biggest asset so far**

Project Development Size in Karnataka.

- Electricity: ~ 125 Million kWh per year
- Size of each panel: 1.96 m²
- Total man days: 54,600

Historical overview of SunSource Energy

Setting up of the company and initial years

- Co-Founded by 2 entrepreneurs in 2010 who came back to India after developing Multi-MW scale solar assets in the US.

Steady growth, gaining critical experience and mass

- Developed on-site Solar and EPC projects across India and SE Asia.
- Includes one of India's first private distributed Solar PPAs, Solar + Storage, and Floating Solar plants.

SHV Energy investment and integration

- SunSource Energy becomes part of SHV Energy.
- Expands off-site Solar development

The road ahead

- Focus on development of larger OA assets to deliver on 1 GW plan.

Courage to Care is in the DNA of SunSource Energy

For People

- Transforming local communities with steady income (land lease)
- Generating meaningful employment opportunities
- Developing communities around the area of our operations

For Planet

- By delivering on our business plan, we will offset 33 Million Tonnes CO2 emissions over the lifetime of our operations
- Equivalent to planting 66 million trees

For Performance

- Focus on OA assets to accelerate free cashflow contribution to SHV Energy group
- Targeting 10x growth between March 23- March 27

SunSource Energy: Awards and Accolades

BW BusinessWorld 40 Under 40

Best Performing Project

Green Future Leadership Award

E&E Foundation Global Environment Award

Quality Management Systems

Occupational health and safety management systems

Environmental Management Systems
